

August 24, 2015

Dear members of the Ct. Siting council,

The Concerned Citizen of North Stratfield, CCNS, has reviewed UI's D & M plan.

We greatly appreciate the consideration of their Landscape Plan for the abutting properties and the protecting of the surrounding wetlands however there are concerns the CCNS still have.

We feel that the construction of a Precast Concrete Wall surrounding the Sub-Station should be considered by the Council and mandated in UI's D & M Plan. Not only for the reason of Aesthetics but for added protection and the security of the station, as well for the protection of the neighborhood, if anything should happen.

Further, we feel that the addition of 7 Lightning Mast on the new addition is "over kill" and unnecessary, for the size of the proposed site. We would like the Siting Council to review UI's plan regarding the Lightning Masts, and ask them to reduce this number.

Thank you for your time and consideration of this important matter.

Yours truly

Art Tournas
